

SECRETLY MARRIED !!!

VERONA SUN

Wednesday November 1st 1597

Yesterday, we all heard of the tragical death of Verona's most famous lovers. The reasons for this fatal event remain unknown but today, a new element was revealed...

According to a secret source who wishes to stay anonymous, Romeo and Juliet were already married since few days !!!

We tell you all of this bombshell exclusively in our paper.

« It was sunset when Juliet came to see me in my church. Then, she implored me to marry her with Romeo... I was so surprised by her request ! But their love was wonderful so I accepted ! I knew that, if I spoke about this secret wedding, their families would part them forever... »

And that's not all, we had an exclusive interview with a second witness : a young very well informed fashionista who has on good authority that a really precious ring with their initials : J&R, was discovered on Juliet's hand !!

It might be from Verona's Tiffany, the famous jeweller's...

Nevertheless, we didn't find any ring on Romeo's hand. Why ???

We have an hypothesis : if Rosaline, Romeo's fiancée, discovered the dead lovers before Juliet's nurse, maybe she would have stolen the ring...

We met Rosaline : « Oh my goodness, I disapprove this union, however I'd never do such a thing ! As if, I'm shocked !!! Drop it, guys ! » Was she honest ? That is the question...

In a nutshell, we will keep you posted of all this event. Tomorrow, you will read an exceptional special edition about the whole Capulet family's unconfessed secrets, and Lady Capulet's hidden lovers !
